An International Play School

WHICH IS THE 'RIGHT' PLAY SCHOOL FOR YOUR CHILD?

What do the above signs mean to you, as an adult? Although they communicate something, unfortunately, in most parts of the world, for an adult, **they mean nothing!**

Research on child psychology and character formation suggests that a person's character is formed by as early as 3 years of age. And the personality traits apparent in toddlers continue into maturity. Hence, it always matters as to what your child goes through in the first few years of life.

WHAT IS GARDEN OF EDEN?

Our Philosophy

Educating means sowing the seed of true LIFE; livelihood is just a consequence.

Teaching means stimulating and facilitating the student to explore NATURE; knowledge is only a by-product.

Character precedes career; purpose adds meaning to success.

Our Belief

Your child's growth during the initial years is the continuation of the process of Creation which begin in the mother's womb.

Teachers are the extended arms of the Creator. Each teacher here is accountable to the Creator for every student of the Garden of Eden.

Our Medium

We communicate with your child strictly in English; but more importantly, we cause them to learn from and relate to the Nature. 'Love' and 'sharing' are the foundations of our teaching methods.
